SUMMARY

Software Development Engineer with hands-on experience building enterprise applications using Angular, Microsoft Dynamics 365 CRM, and the Microsoft Power Platform (Power Apps, Power Automate, Dataverse). Combines full-stack web development with a strong foundation in data analytics, Power BI, and modern AI techniques including LLMs, RAG, and Agentic AI. Passionate about delivering scalable, business-focused solutions that bridge enterprise systems with intelligent automation.

PROFESSIONAL EXPERIENCE

Software Development Engineer — RealtySlices

March 2026 – Present

Hyderabad, India

- Developing responsive frontend interfaces using Angular to deliver dynamic, user-friendly experiences across the platform.
- Building and customizing Microsoft Dynamics 365 CRM solutions to streamline business workflows and customer engagement.
- Designing low-code automations and applications using Microsoft Power Platform — Power Apps, Power Automate, and Dataverse — to integrate data and processes across systems.

Data Analyst — Cognizant

Dec 2025 – March 2026

Chennai, India

- Performed data cleaning, transformation, and modeling using Power Query and DAX.
- Designed and developed interactive Power BI dashboards to visualize business and operational data, enabling faster decision-making.
- Implemented forecasting and trend-analysis models to predict future performance metrics.

SKILLS

- Programming:** Python, Java, C, C#
- Microsoft Stack:** Microsoft Dynamics 365 CRM, Power Platform (Power Apps, Power Automate, Dataverse), Power BI
- Web Development:** Angular, TypeScript, React.js, HTML, CSS, JavaScript, Bootstrap, Flask
- Databases:** MySQL, Oracle RDBMS, SQL, Vector Databases (FAISS, ChromaDB)
- Data Science & AI:** NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Machine Learning, LLMs, GenAI, Agentic AI, RAG
- Cloud:** AWS (EC2, S3, IAM, RDS, CloudWatch), Azure, GCP (Basics)
- DevOps & Tools:** Docker, Kubernetes, Git, GitHub, VS Code, Google Colab

PROJECTS

Dr. Healify AI — Intelligent Medical Assistant

Tech: Python, Flask, LLaMA, LangChain, RAG, Random Forest, Scikit-learn

- Developed a Flask-based healthcare chatbot using Python, LLaMA, LangChain, and RAG.
- Built modules for symptom checking, BMI calculation, health monitoring, and condition explanation.
- Achieved 96.58% accuracy in disease prediction using a Random Forest classifier.

Plagiarism Checker using Machine Learning

Tech: Python, Flask, NLP, Naïve Bayes, SVM, Random Forest, Scikit-learn

- Developed an NLP-driven plagiarism-detection tool using Python and ML models (Naïve Bayes, SVM, Random Forest).
- Built a Flask web application for real-time analysis with similarity scoring and content highlighting.

EDUCATION

Master of Computer Applications (MCA)

Feb 2024 – Oct 2025

KLE Institute of Technology, VTU — GPA: 9.2/10

Bachelor of Computer Applications (BCA)

Sept 2020 – Oct 2023

KLE's RLSI Belagavi, RCU — GPA: 8.8/10

CERTIFICATIONS

- Microsoft Agent in a Day — Koenig Solutions, 2026
- GenAI Powered Data Analytics — Tata, 2025
- Web Development — Octanet Services, 2024
- AWS Certified Cloud Practitioner — AWS, 2023

ACHIEVEMENTS

- Presented research paper “MediCura AI: Smart Health Companion for Patients & Professionals” at the 2nd Joint International Conference on Innovative Engineering Technologies (ICIET–2025), organized by KITCoE (India), Ningxia University (China), SJTU (China), and AGH University (Poland).
- Presented research paper “Mango Tree Disease Detection Using CNN-Based Transfer Learning” at the 4th International Conference on NKCon '25.
